

Government of the District of Columbia
DEPARTMENT ON DISABILITY SERVICES

Family Support Council

The Family Support Council (FSC) was established in July 2015 to assist, advise and provide recommendations to the Department on Disability Services (DDS) and sister agencies on developing person and family-centered systems of support throughout the lifespan of people with intellectual and developmental disabilities. The FSC is made up of 11 voting members who were appointed by the Department on Disability Services (DDS) Director and all meetings are open to the public. Meetings typically occur every other month.

In addition to DDS, the following government agencies participate in the FSC:

- Child and Family Services Agency
- District of Columbia Office on Aging, Aging and Disability Resource Center
- District of Columbia Public Schools
- Department of Behavioral Health
- Office of Disability Rights

DDS will provide accommodations needed for meaningful participation. Questions? Contact Emily Price at emily.price@dc.gov or 202-730-1687.
