Understanding Behavior: What are Autistic Children Communicating?

Weds, March 10 at 7 PM – 9 PM (NEW DATE)

Children with autism often behave in ways that confound families and limit their navigation of school, the community or daily living. Join xMinds and our guests **Sarah Wayland, PhD.**, founder of Guiding Exceptional Parents, and **Kim Clairy, OTR/L**, Occupational Therapist and Autistic Self-Advocate, as we explore these questions:

- How can we understand the behavior we see?
- How can we know whether the child's actions are intentional?
- How can we figure out what the child may be reacting to?
- How should we respond to these behaviors?

Location: Online (Zoom link will be provided after registration)

Cost: Free (Registration required)
