1. PURPOSE

The purpose of this policy is to define the criteria by which the District will make Level of Care determination decisions for eligibility to participate in the Intermediate Care Facility for Individuals with Intellectual and Developmental Disabilities ("ICF/IDD") and Intellectual Disability/Developmental Disability ("ID/DD") Home and Community-Based Services Waiver programs.

2. APPLICABILITY

This policy applies to all DDA employees, subcontractors, providers/vendors, consultants, volunteers, and governmental agencies that provide services and supports on behalf of persons with disabilities receiving services as part of the DDA Service Delivery System funded by DDA or the Department of Health Care Finance (DHCF).

3. AUTHORITY

The authority for this policy is established in the Department on Disability Services as set forth in D.C. Law 16-264, the “Department on Disability Services Establishment Act of 2006,” effective March 14, 2007 (D.C. Official Code§ 7-761.01 et seq.), as amended; D.C. Law 2-137, the “Citizens with Intellectual Disabilities Constitutional Rights and Dignity Act of 1978,” effective March 3, 1979 (D.C. Official Code § 7-1301.01 et seq.), as amended; 29 DCMR § 1940.1 et seq., as amended; and 29 DCMR § 9014.1 et seq., as amended.

4. POLICY

It is the policy of DDA to:
A. Complete an initial evaluation of the need for the level of care provided in an ICF/IDD when there is a reasonable indication that the person might need the services in the near future unless the person receives home or community-based services. This evaluation shall review a person’s condition to determine:

1. If the person requires the level of care provided in an ICF/IDD; and
2. That the person, but for the provision of waiver services, would otherwise be institutionalized in such a facility.

B. Conduct periodic reevaluation, at least annually, of each person receiving home or community-based services to determine if the person continues to need the level of care provided and would, but for the provision of waiver services, otherwise be institutionalized in an ICF/IDD.

C. Offer alternatives when a person is determined to be likely to require the level of care provided in an ICF/IDD. The person and the person’s guardian or representative will be:

1. Informed of any feasible alternatives available under the waiver; and
2. Given the choice of either institutional or home and community-based services.

5. RESPONSIBILITY

The responsibility for this policy is vested in the DDS Director. Implementation for this policy is the responsibility of the DDS Deputy Director for DDA.

6. CRITERIA

Per Title 29 DCMR, Section 1902.4 and 9002.4, a person meets the level of care determination if one of the following criteria has been met:

A. The person's primary disability is intellectual disability with an intelligence quotient (IQ) of 59 or less; or

B. The person's primary disability is intellectual disability with an IQ of 60-70 taking into account the standard error of measurement, and the person has at least one of the following additional conditions:
   1. Mobility deficits;
   2. Sensory deficits;
   3. Chronic health needs;
   4. Behavior challenges;
   5. Autism;
   6. Cerebral Palsy;
7. Epilepsy;
8. Spina Bifida; or

C. The person’s primary disability is an intellectual disability with an IQ of 60-70, taking into account the standard error of measurement, or the person has a developmental disability, either of which results in substantial functional limitations in at least three of the following major life activities:
   1. Self-care;
   2. Understanding and use of language;
   3. Functional academics;
   4. Social Skills;
   5. Mobility;
   6. Self-direction;
   7. Capacity for independent living; or,

7. STANDARDS

The following are the standards by which DDS will evaluate compliance with this policy:

A. Persons who are found eligible for services from DDS's Developmental Disabilities Administration (DDA) are persons who have been determined to have a diagnosis of an intellectual disability or developmental disability.

B. The Eligibility Determination Unit ("EDU") will complete the DC Level of Need Assessment and Screening Tool (DC LON), which is a comprehensive assessment tool, used to document a person's health, developmental and mental health diagnoses, and support needs in all major life activities, to determine the level of care determination criteria specified in (6B) 1-8 and (6C) 1-8 above.

C. The DDA EDU team will complete the DC LON based on information obtained in the DDA Intake application, medical records, social work history, psychological evaluations, school records, allied health evaluations, vocational evaluations, direct observations, and/or other available background information and interviews. The DC LON provides an assessment of the person's functional, developmental, behavioral, social, health and nutritional needs, which is required by an ICF/IDD program to determine if admission to that specific program is appropriate.

D. The "additional conditions" specified in the level of care determination criteria in (6B) 2,3,5,6,7,8 are found in the DC LON at questions 15 and 16. The criteria for (6B) 1 is considered met if the person receives a score of 1 or higher on the Mobility scale in the DC LON Summary Report, and (6B) 4 is considered met if the person receives a score of 2 or higher on the PICA, Behavior or Psychiatric scale in the DC LON Summary Report.
E. The criteria for substantial functional limitations in the following major life activities specified in the level of care criteria in (6C) is considered met by the following scores in the DC LON Summary Report:

1. Self-care - Score of 3 or higher in Personal Care
2. Understanding and use of language - Score of 1 or higher in Communication
3. Functional academics - refer to the Psychological evaluation
4. Social Skills - Score of 3 or higher in Social Life
5. Mobility - Score of 1 or higher in Mobility
6. Self-direction - Score of 1 or higher in Comprehension and Understanding
7. Health and Safety – Score of 2 or higher in either Health or Safety)
8. Capacity for Independent Living – Score of 2 or higher in Daily Living.

F. When a person served by DDA has chosen and is accepted by an ICF/IDD program, DDA will submit documentation substantiating the intellectual and/or developmental disability (e.g., medical evaluation, psychological evaluation, allied health evaluations, etc.), the DC LON, and the DC LON Summary Report along with Form 1728 to Delmarva to complete the ICF/IDD level of care determination.

G. The level of care must be re-determined on an annual basis per 42 C.F.R. § 441.302(c)(2) for the ICF/IDD program and the approved DC ID/DD HCBS waiver. The DC LON is completed prior to the team’s review of the Individual Support Plan (ISP) and will be utilized to re-determine the level of care criteria.

H. The level of care re-determination shall be conducted more frequently than annually if there is evidence of a significant change in the person’s condition or circumstances that may necessitate a change in services.

I. For persons receiving services in an ICF/IDD the provider is responsible for submitting the completed DC LON and Summary Report, the continued stay Recertification Form complete in its entirety, and the physician’s certification and recertification for skilled and intermediate care form dated with the physician’s signature to DHCF for the re-determination for the ICF/IDD program.

J. The DDA Waiver Unit completes the level of care re-determination prior to authorizing the new waiver Plan of Care.
